# Organic MYRTLE-OLIVE OA
## Molecular ageing prevention

Oléos
CREATOR OF YOUR OLÉOACTIFS

Highly concentrated in phenolic acids and flavonoids of which ortho-diphenols, powerful antioxidants, organic MYRTLE-OLIVE OA helps in scavenging the Reactive Oxygen Species (ROS) which develop in cutaneous cells. Thus it protects from photo-induced oxidative stress 10 times more efficiently than pure vitamin E and its ORAC value is 50 times higher than an oil or a macerate.

**ACTIVE BIOMOLECULES**

Biophenols ~2000 mg / kg

*Oleuropein, Hydroxytyrosol, Myricetin, Cafeic acid, Chlorogenic acid*

Squalene ~ between 500 and 2000 mg /kg

**PROPERTIES**

Reactive Oxygen Species (ROS) scavenger

Prevention of photo-induced oxidative stress

Prevention of molecular ageing

In vitro test : measurement of the intracellular oxidation level of fibroblasts facing a UVB photo-induced oxidative stress.

|---|---|
| INCI : | ***Myrtus Communis & Olea Europeae* leaf Extract** |
| ORIGIN : | Leaves from a sustainable supply chain of south Morocco |
| BOTANIC : | Myrtle is known for its antibiotic and repairing properties, and olive ancient tree for its anti-ageing properties. |
| ORGANIC : | 82 % |
| ADVISED USE : | > 2 % |
| SHELF LIFE : | 18 months packaged under nitrogen |

ECOCERT COSMÉTIQUE BIOLOGIQUE

## Advantages of the Oléoactifs

Oily actives 100% natural & stable

Certified organic by ECOCERT (Raw material certified by ECOCERT Greenlife according to the ECOCERT standard for Natural and Organics cosmetics available at http://cosmetics.ecocert.com )

Exclusive Oléo-Eco-Extraction patent

**Active and stable** extracted biomolecules

Protects formulas from oxidation

Additive free, preservative free

Non cytotoxic, non phototoxic, non irritant

Non OGM sources, non allergenic
